

Hydro X-Flow

Silicone prostate catheter with hydrophilic coating

HYDRO X-FLOW

SILICONE PROSTATECTOMY CATHETER WITH HYDROPHILIC COATING

→ HYDROPHILIC COATING

- For easy insertion and withdrawal

→ PERFORMANCE

- Wide irrigation and drainage channels to prevent blocking due to clots
- Big bevel and eyes to ensure excellent drainage capacity

→ SAFETY

- All Silicone - elimination of latex allergy
- Clear catheter body to monitor the drainage quality and visualize urine
- Closed round tip for ease of placement of an introducer if needed
